## Summary

Hey, guess what? You made it through module number three! I'm so happy for you.

Now you have to go back and implement. Take a number of these strategies and start implementing them. Now, it may sound overwhelming when I say a number of these strategies, but a lot of them won't take you more than a few minutes. Yeah the one page promo is going to take you some time, but once you've got that nailed down and you can promote it through the ways that I taught you, you'll be growing your group in no time.

Now remember those other ones such as having guest experts in your group, having coffee dates, having events, etc, you can use those strategies over and over again. Once a month, every other month, and really start growing your group. In the next module, we're going to talk about other ways to grow our group that may take a little bit more time, but are going to have way more return on effort. So, take this time to implement as many of these as you can before you get enticed by the other ones. But truly, because I know one of these will take a few minutes to do, it'll have a giant impact on your group from here on out. I'll see you in the next module.
